

Ideas for Project on 'Transport'

Date for finishing and handing in your project: Monday, 5th March

Possible Main Topics – CHOOSE ONE:

- *Animal (dogs, camels, horses)*
- *Mechanical - Steam e.g. Trains*
- *Ships: Sailing ships/Steam ships/modern ships*
- *Petrol Engines (e.g. cars/ trucks)*
- *Flight : Hot Air Balloons , Aeroplanes*
- *Space Travel*

Ideas for what you might include:

- History e.g. inventors of new technology and early types vehicle
- Famous models (e.g. Henry Ford's 'Model T Ford')
- Where people used this form of transport
- How people's loves might change because of this sort of transport.
- Examples of how it is used by you!

Do include 'real evidence' e.g. tell me about the transport you use making a journey you have made or one you often make (e.g. how you visit relatives in another country).

You might describe a journey you would really love to make and how you'd plan and make it (It can be on from the past).

You can present your project in a scrapbook, a folder or as a PowerPoint presentation (on a memory stick).

YOU will have to read it and talk about it, so don't write anything you can't explain to us!

Pictures/ drawings/photographs/ tickets/timetables will make it more interesting.

It's YOUR project and I want you to discover the information and follow your interests.
